**MEMORANDUM FOR: Director of Central Intelligence**

**SUBJECT : Transmittal of Development Projects  
Division Operational Program - FY 1961**

1. Transmitted herewith is the DPD Operational Program for FY 1961. Its variance in format from the submissions made by other DD/P operating divisions is occasioned by both the extreme sensitivity and the emphasis on hardware of DPD operations.
2. Part I consists of a description in broad terms of presently contemplated operations, together with certain underlying assumptions. Some of the assumptions therein set forth will doubtless have to be modified during the year, but they are at present a reasonable base from which to project the costs specified on Form 1550, which is attached at the end of the Program.
3. Part II consists of short descriptions of each of the line items appearing on Form 1550.
4. Part III is a resume of the various procedures currently employed to review and approve DPD activities. It is written in some detail in order to delineate precisely the nature of the approvals sought.
5. At the end of Form 1550 there appears a separate listing of several projects for which no funds were provided in the FY 1961 Congressional Budget. The funding for these activities must come from the Agency Reserve for Contingencies, and accordingly will be made the subject of separate correspondence addressed to the Bureau.

of the Budget. These activities are listed on Form 1550 in order to present a complete picture of DPD's FY 1961 operations and to secure policy approval prior to seeking the required funding.
